

ENHANCED VISIBILITY SAFETY GARMENT

Abstract of Disclosure

An improved high visibility PPE safety garment (10) comprises front panels (12, 14) and a rear panel (16) reinforced by an arrangement of contrasting straps (26, 28) with retroreflective strips (30) thereon extending across the front, back and sides to enhance visibility from all viewing angles. The PPE safety garment (10) is readily adjustable for proper fit over various outer garments of differently sized wearers. A second embodiment (50) is also disclosed.
